To British Offer

Council by Premier.****FORESEE NO OBSTACLE

tic Changes From Orig-

London, August 11.—Eamonn de Valera's reply to the British government's proposals for a permanent Irish peace is in the hands of Lloyd-George, and the British premier will return to London from Paris Friday morning, accompanied by the majority of British delegation to the supreme council meeting.**Lloyd-George's sensational return
from the French capital, it was
semi-officially given out in Paris,
was because of the sudden develop-
ment in the Irish situation. In
other quarters it is declared, how-
ever, that the receipt of De Valera's
reply was used as an excellent
excuse for abandoning the coun-
cil conference by the British.****In any rate, the British premier
and his cabinet now have five days
before the assembly of the Dail
Eireann, which is formally to ratify
the action of the president and his
advisors, in which to consider De
Valera's reply and smooth away any
remaining differences, accepting or
rejecting the modifications of the
original terms which may be de-
manded by the Irish "president."****Following Predicted Course.****Events of the Irish crisis are fol-
lowing exactly the program pre-
dicted exclusively in United News dis-
patches of July 31, and based on in-
formation from sources close to
the "inner circle" at Dublin. At
that time it was declared that De
Valera and his colleagues—Arthur
Griffith, Michael Collins, and others
of the cabinet—had arrived at a
decision that, with certain modifi-
cations and changes the principle
laid down by the British premier
was mainly acceptable.****For the past three weeks the
Irish cabinet has been working on
a revision of the terms which was
necessary before official reply could
be made to Lloyd-George. Mean-
while, the call for the meeting of
the Dail Eireann, which must for-
mally ratify the negotiations, was
issued, and the Irish parliament will
meet on August 15 with the propos-
als in complete form, ready for
final action.****The British cabinet will now con-
sider De Valera's reply and what-
ever new demands are made, after
which Lloyd-George will make his
official statement to the house of
commons.****No Obstacles Foreseen.****It is believed that neither Lloyd-
George nor the cabinet will find any
difficult obstacle in Sir Sean's
modification of the terms. Hints
that Ulster "will not be coerced,"
issuing from De Valera's headquar-
ters recently, are taken as evidence
that the southern leaders have every
desire to propitiate the north rather
than to antagonize it, and that in
their reply to Lloyd-George they
have sought to conciliate Ulster.****It is taken for granted that what-
ever action De Valera has taken,
the Dail Eireann will support him
completely. The question is to be
the first full session of that body
which for so many years was forced
to gather clandestinely, hunted and
harried by British forces, its mem-
bers liable to arrest and imprison-
ment at night. De Valera has sum-
moned the Irish "republican" repre-
sentatives from Rome, Paris and
Washington to attend the Dail
Eireann conference, while the Brit-
ish government has agreed to issue
permits for all of those Irish offi-
cials.****The delivery of De Valera's reply
was quietly accomplished at Ards-
ley, England, by Secretary C. E. R. Riordan,
representative of the Sinn Fein,
walking to the office of Auster-
Chamberlain, to whom the document
was given in the absence of Lieut. Gen. The rep-
ly was immediately put on the wires to Paris.****Later in the day, Auster Cham-
berlain and other members of the
cabinet met to discuss the terms of
the agreement that the rep-
ly had been received and informed the house
that the premier would make an
official statement on the Irish sit-
uation early next week.****QUESTIONNAIRES
ISSUED ON TAX
RATE BY CHAMBER****To ascertain the position of its
membership on the proposed in-
crease in the city tax rate from
\$1.55 to \$1.50, the Atlanta Chamber
of Commerce will send each member
a questionnaire bearing various ques-
tions on the subject. It was an-
nounced Thursday by Secretary C. E. R. Riordan,
following a meeting of the
board of directors.****The matter was discussed briefly
at the same meeting Thursday, as
it was decided to postpone a general
discussion until a future meet-
ing, when a larger number of di-
rectors are present.****BRITISH PREMIER

United News Staff Correspondent.****Paris, August 11.—In spite of the
intimation of Premier Briand that
the British and French delegations
were deadlocked on the Silesian
question, and the feeling in diplo-
matic circles that this was the real
reason underlying Lloyd-George's
return to England, the French foreign
minister has agreed to issue a
statement commending the legislature
and the government for their
efforts to reach a final agreement
on the Silesian question.****Simultaneously with the statement
of General Wright a statement com-
mending the legislature and declar-
ing that the state is now in the
best financial condition it has ever
enjoyed in decades was issued by Gov-
ernor Thomas W. Hardwick.****At 2:22 A. M.—(By Constitution Leased Wire)—Thom-
as Jefferson Ryan, republican rep-
resentative from New York city,
today issued a statement in which he
severely criticizes Senator Thomas E. Watson, charg-
es him with being a bigot, his igno-
rance and his constant violations of
the principles upon which the
country is founded.****Simultaneously with the issuance
of his statement Representative Ryan,
who introduced a resolu-
tion in the house providing that the
Columbia Sentinel be discontinued at the
present time, and an ex-
pression of dissatisfaction forwarded
to the president and to Sen-
ator Thomas E. Watson, stated that his
resolution would be taken up for
consideration before the judiciary
committee of the house next week
and that he would appear to urge
its favorable consideration.****"The English and French view-
points are in entire disagreement,
and it is therefore useless to con-

attempt to reach an agree-

man W. C. Lankford, of Georgia, to-
day advocated in the house the
passage of his \$50,000,000 cotton
relief bill, which provides for im-
mediate purchase through the war
finance corporation from banks,
either national or state, farmers
not maturing within three years
from the passage of the act and se-
cured by either first or second trust
deeds or liens against real estate
owned by farmers or secured by in-
dorsement, today before the house.****The bill was formally introduced in
the lower branch of congress last
Tuesday.****During the course of his remarks,
Congressman Lankford declared
that although vast sums of money
had been appropriated by the gov-
ernment in the various phases of
industry, no real assistance has been
rendered the farmers of the country,
who, he stated, have suffered after
the effects of the war to a greater
degree than any of those to whom
aid has been given.****"It is time for us to legislate for
the farmer and quit talking about
it," Mr. Lankford said. "We have
to fight here not only for the farmer,
but we have to put forth our best
efforts to keep the enemies of the
farmers of the nation. During
the last few days much has been
said about legislation now pending
in Congress, and the finance corpora-
tion has been asked to loan money to the
farmers. I have studied closely the bill which
passed the senate, and I confess I
was not in the mood," said Mr.
Helmer, "and I cannot say now
whether or not I will enter. I am
being urged to enter against Mr.
McCallie, Jr., by a number of people all
over the city. I am called to the telephone three and four times a
day by people who are interested in
having me for school commis-
sioner, but I have not decided the

local shipping concerns indicated a
larger number of vessels than usual
to sail from the port during the

ports, several for the Far East and
several for Scotland. Some will sail
one or two ships or two to Liver-

Financial Condition Will
Be Available.****With a revenue from the general
tax bill estimated at approximately
\$100,000 greater than appropriations
authorized by the legislature and the
increase in revenue over ap-
propriations may run to a much
larger figure, the state of Georgia
faces a much brighter situation fin-
ancially than it has faced in years,
according to General William A.
Wright, state comptroller.****In addition to the state, all prob-
ably, will receive approximately
\$2,500,000 from the disbursement of
rentals of the state railroad and this
money will be turned into the
general fund of the state, according
to the statement of Comptroller
General Wright in reference to the
fiscal situation following the ad-
junction of the legislature.****Simultaneously with the statement
of General Wright a statement com-
mending the legislature and declar-
ing that the state is now in the
best financial condition it has ever
enjoyed in decades was issued by Gov-
ernor Thomas W. Hardwick.****At 2:22 A. M.—(By Constitution Leased Wire)—The
legislature adjourned sine die at
2:22 o'clock Thursday morning
after passing a new general tax
act and a new appropriations act,
and as the members were leaving
Atlanta Thursday state officials
were making plans to carry out the
provisions of the two measures. Ex-
act figures as to what the revenue
bill will bring were not available
Thursday, as it will take some time
to compile accurate statements, ac-
cording to the officials. According to
Comptroller General Wright, how-
ever, it is probable that the rev-
enues will exceed the income by a
substantial sum provided the vari-
ous items in the revenue bill are
constitutional.****Payment of indebtedness which
has accrued in the last few years
and payment of pensions to both
classes of Confederate veterans both
almost wholly, however, on the
sale of the state railroad ren-
tals. Governor Hardwick announced
Thursday he will offer these secu-
rities to Georgia banks first and
will sell them to the highest bid-
der.****Comptroller General Wright stat-
ed Thursday that his figures sub-
mitted to the governor on the last
day of the legislative session, con-
cerning the estimated revenues and
estimated expenditures, were as
exact as accurate as can be obtained
now. According to these figures the
estimated revenue for 1922 will be
\$9,357,442, and the authorized ex-
penditures will amount to \$9,190,000.****Must Contain Work.****"With a revenue exceeding the ex-
penditures and with money obtained
from the state railroad rentals avail-
able for current debts and pen-
sions the state will be in a better
financial condition than it has en-
joyed in years," Comptroller General
Wright declared.****"But to keep in good financial
condition it will be necessary for
succeeding governors to keep the
appropriations to the minimum
possible."****It is believed that what-
ever action De Valera has taken,
the Dail Eireann will support him
completely. The question is to be

which for so many years was forced

president of the Tech board, was
seen Thursday just prior to his
departure for a vacation in the
mountains, and made the following
statement:****"I was with the legislature
throughout the past session and kept
close watch on all developments
with the affairs of Tech constantly
in mind. The interests of the in-
stitution have pressed upon my
heart more closely than ever be-
fore, due to the trouble experienced
by the school during the last term.****"I cannot make a detailed state-
ment at this time," said Dr. Mathe-
son, "because the future of Tech is
undecided. It is needless to say,
however, that, with her requested
appropriation cut in half, Tech will
be seriously crippled. The trustees
Wednesday will discuss the matter
thoroughly and map out the course
of the institution to conform to the

"One of these men, the city's chief of police, with his wife's influence and with his vote certain employees in the police department who have been condemned by three grand juries, and the members of the committee of council; and dismisses as unworthy of his notice serious charges made openly through the press against him and his public hospital; but he does not hesitate to vote for the discharge of another city employee, a teacher, against whom there has been no charge, and who has a record of twenty years of efficient service to her credit."

Signet Affidavit.

Miss Bordan also avails herself of the signed affidavit held by Mr. McCalley in the statement which follows:

"I have refrained until the present time from making a statement

to the public because I did not wish to interfere with the plans of the Atlanta Public School Teachers' association and the efforts of the Atlanta Federation of Trades but now that the efforts of these two organizations have proved unavailing to secure fair treatment, and my belief that it is not only to myself but to all who are interested in the welfare of our schools and teachers to state the real ground on the part of Mayor Key."

Fought in Open.

"As publicly manager for the Atlanta Public School Teachers' association during the time I fought out in the open, often in opposition to Mr. Key's wishes, as most people interested in the schools and the public welfare attempted to use the schools for their own political purposes. On more than one occasion I have been called to meet in union with my fellow teachers and with the various teacher organizations, to oppose Mr. Key's policies. As I had a right to do the same as any other citizen, I have never felt that being a teacher deprived me of my rights. I have always held that teachers should take active part in civic affairs, and should furnish to their students and parents the benefits of the highest type of citizenship."

"An principal of the Davis Street school, I still further antagonized Mr. Key by insisting in conjunction with practically all of its patrons and residents of the district, that the school and its instruments be removed from the school, and in his absence, notice of complaints against her, and no employee of the schools, white or black, has ever before been dismissed having charge of the board. Teachers have been dismissed, many of them; but they have always been given due notice of their insufficiency or of the grievances which the board held against them."

"Superintendents have come and gone—I believe that we held the unenviable record of having the shortest during the last eight years during the time the schools have weathered all these changes and have made progress in spite of them because the workers in the ranks of the principals and teachers have felt at times secure in their positions as long as they gave sufficient cause, but because the man who considered them free to work without fear of the religious and personal antagonisms of the religious and prejudices of those in authority."

"That feeling of security on the part of our teachers was shattered when, on June 10, the board of education, setting aside the rules under which that body is supposed to function, voted to dismiss, without notice or hearing, all teachers, except the privilege of a hearing, a member of the teaching force whose work had never received a word of adverse criticism, but which, to the contrary, had received the approval and the endorsement of all preceding boards for more than twenty years."

Assured Protection.

"Furthermore, during my long connection with the schools, I have received no intimation, nor have my fellow teachers understood that our teachers were threatened with dismissal, or that our civic and religious opinions pleased the politicians who happened to be on the board of education. By the way, Mr. Key is committed to union principles, and the city exercises the same right, and that right has, however, to my knowledge, been denied, because of the previous board of education."

Teachers Commissioners.

Miss Bordan severely criticized Commissioner McCalley, declaring that he had broken each and every promise he had made to the voters who had elected him to office. She charged that Commissioner Hutcheson had openly boasted that he would be re-elected in less than half more years and expected to see every Catholic teacher in Atlanta fired out of the schools."

"The principal reasons for these meetings are necessary in order that what follows may be fully understood."

Name Opposition.

"The four men who voted to take this stand are Mayor James L. Key, Walter Sims, W. L. McCalley and Carl Hutcheson."

"From sources which have reached me from various reliable sources, some of these men have not hesitated to discuss with any one who has come to question the reasons for voting to dismiss me. They refused to face me with what they termed their 'political' reasons, but with apparent willingness they refused to give to every casual questioner the reasons which they denied to me."

"From statements which can be verified, and from certain written

information which I have received, I have held no discussions in arriving at the conclusion that these men voted against me for two reasons: First, I am a Catholic; and second, to state the real ground on the part of Mayor Key."

By the way, Mr. Key is committed to union principles, and the city exercises the same right, and that right has, however, to my knowledge, been denied, because of the previous board of education."

Teachers Commissioners.

"The four men who voted to take this stand are Mayor James L. Key, Walter Sims, W. L. McCalley and Carl Hutcheson."

"From sources which have reached me from various reliable sources, some of these men have not hesitated to discuss with any one who has come to question the reasons for voting to dismiss me. They refused to face me with what they termed their 'political' reasons, but with apparent willingness they refused to give to every casual questioner the reasons which they denied to me."

"From statements which can be verified, and from certain written

information which I have received, I have held no discussions in arriving at the conclusion that these men voted against me for two reasons: First, I am a Catholic; and second, to state the real ground on the part of Mayor Key."

Fought in Open.

"As publicly manager for the Atlanta Public School Teachers' association during the time I fought out in the open, often in opposition to Mr. Key's wishes, as most people interested in the schools and the public welfare attempted to use the schools for their own political purposes. On more than one occasion I have been called to meet in union with my fellow teachers and with the various teacher organizations, to oppose Mr. Key's policies. As I had a right to do the same as any other citizen, I have never felt that being a teacher deprived me of my rights. I have always held that teachers should take active part in civic affairs, and should furnish to their students and parents the benefits of the highest type of citizenship."

"An principal of the Davis Street school, I still further antagonized Mr. Key by insisting in conjunction with practically all of its patrons and residents of the district, that the school and its instruments be removed from the school, and in his absence, notice of complaints against her, and no employee of the schools, white or black, has ever before been dismissed having charge of the board. Teachers have been dismissed, many of them; but they have always been given due notice of their insufficiency or of the grievances which the board held against them."

Assured Protection.

"Furthermore, during my long connection with the schools, I have received no intimation, nor have my fellow teachers understood that our teachers were threatened with dismissal, or that our civic and religious opinions pleased the politicians who happened to be on the board of education. By the way, Mr. Key is committed to union principles, and the city exercises the same right, and that right has, however, to my knowledge, been denied, because of the previous board of education."

CIVIC COMMITTEE TO MEET BOARD

Nine-Eared Ear Of Corn Tops All In Garden Event

TAX RAISE URGED BY P.T.A. BOARD

Representatives of the civic organizations of Atlanta, including the special safety committee of the Junior Chamber of Commerce, will appear before the board of police commissioners at a special meeting called for 8 o'clock this evening by the chairman, Dr. C. Vaughan.

A special call meeting of the President's club at 11 o'clock Friday morning in the directors' room of the Atlanta Chamber of Commerce will select delegations from each of the organizations to present the offer of Atlanta citizens to contribute \$100,000 to the department in decreasing the number of accidents which have occurred recently.

In addition to this feature there was a proposal that a public safety committee from every city, at large, Mayor Key making the appointments upon the recommendation of the group, be formed which would meet him in his office Thursday morning. The following are his appointees: P. Thornton Mayo, L. W. Johnson, W. G. Drayton, Waukesha club; J. G. Pace, Civitans; George Delbert, Ad club; John E. Addicks, Rotary club; and W. D. Buffum, Chamber of commerce.

To Meet Board Friday.

The delegation which will meet with the police board at its special session Friday night will ask that the police department exert every effort to keep the traffic in danger to life and limb which is believed to exist in Atlanta at present.

The police who go before the committee will offer their services, reserving, to the city and will pledge the support of their organizations in helping enforce the traffic laws in Atlanta.

In addition to those named by Mayor Key, the Atlanta Woman's club, the Parent-Teacher conference, the Optimist Club, etc., will be asked to name representatives. Police Chief Beavers, Fire Chief Cody, Willis A. Stinson, superintendent of schools; Henry L. Collier, chief of construction; John Jenzen, chief of the sanitary department; and Dave R. Givens, director of parks are the other appointees by the mayor.

The public safety committee of the Junior Chamber of Commerce, headed by Roy Leach, will be in the office of the chamber of commerce and conferred on the proper action necessary to perpetuate their campaign for safety in the city. It was decided that the call meeting of the police commission if Chairman Vaughan would consent would be held Saturday at 11 o'clock. The committee called on Dr. Vaughan and was assured of his co-operation and his willingness to call the special meeting for Friday night.

Outline of Program.

The safety program outlined by the committee appointed in the mayor's office has been outlined as follows:

Safe Drivers' Club—Organization of motorists pledged to observe traffic laws at all times.

Safety in Schools—A series of twelve lectures each by an expert, on mechanical safety and safe operations, given to drivers, but intended primarily for truck drivers employed by corporations, etc.

Placing of signs and warnings at dangerous curves, crossings, etc. Co-operating with city and county officials in designating streets.

Pedestrian Hazards—Designation of elevators, etc., in sidewalks. Obstacles on sidewalks, etc. Proper posting of cross walks during construction of buildings.

Designation of street crossings and camp areas against "jay-walking."

Industrial School for Foremen—A series of lectures intended to assist the foreman.

School for Safety Inspectors—A series of lectures for the inspection of safety inspectors in the industries.

APARTMENT LOOTED;
JEWELRY IS STOLEN

Dr. B. O. Winkle, apartment No. 715 Highland, availed himself to police Thursday evening to report that his apartment had been entered earlier in the evening by an unknown thief who had taken away several diamonds to the value of several hundred dollars. The robber, she said, effected entrance through a rear window, which was open, at approximately 10 p.m. in the act of looting the rooms when frightened away by Mr. Winkle's entrance.

W. G. Woody, of Chula, Erwin county, wins the handsome celluloid fire tongs.

Thursday, Mr. Woody and Erwin county soared into the topmost niche of the hall of fame, when the well-known planter of R. F. D. No. 1, Chula, Ga., entered a nine-eared ear of corn in The Constitution's great vegetable event.

Freak Vegetable Editor Stevenson, who has the distinction of nine ears on one stem, eight of them growing around a large ear in the center, and began consulting the experts for the correct numerical title for the correct vegetable event.

He found the word "octupule," which would have described the people rating the tax rate increase in the constitution, but the dictionary failed to reveal anything like "novemtiple," so he had to give up in disgust and settled for the nine-eared ear in plain English.

At any rate, the cluster of nine ears of corn on a single stem beats the record of nine ears seen in Washington by Z. F. Hannon, of near Cartersville, and it now holds first place in the flood of vegetable freaks mailed to The Constitution.

It was pointed out that if the people rating the tax rate increase in the constitution had been accurate, the schools of Atlanta will receive 26 per cent of the gross revenue of the city, all non-resident tuition fees, and the school fund will be paid by the city of interest and sinking fund on all school bonds.

The present tax rate of Atlanta was pointed out at the meeting of the lowest in the United States and is lower than that in a number of cities of Atlanta's size, including Atlanta and Atlanta taxes on the 100 per cent valuation.

It was said at the meeting that funds for school purposes will be available in September 1. The monthly payrolls of the schools will amount to \$110,000 and there will be four to five million dollars in the school fund by December 1, when the deficit last year is to obtain money to meet the payrolls and the deficit rate it was asserted at the meeting.

But that wasn't the only entry in the contest Thursday. Right across the Atlantic frontiers was found by Police Sergeant C. P. Connelly, 32 Culverton Street. It is a large twin Indian potato, seen in Washington by Mrs. M. E. McWhorter, of Calhoun, Gordon County. Mrs. Fred Atkins, of Greensboro, sent in a twin potato, and Polk county on the map with a fine, large twin squash.

The contest is growing warmer every day. Who'll win in the soft-shelled egg plant?

FIVE ARE HELD AFTER ATTEMPT TO ROB PAY ROLL

Washington, Aug. 11.—Five suspects were being held today by the police in connection with the attempted robbery yesterday of a paymaster messenger at the plant of the First National Bank, which resulted in the killing of three policemen and the wounding of four other persons, and others being sought. The committee members were being ushered out of the meeting in accordance with what was said to be custom.

Determination on the details went over until tomorrow but before further moves are made the republicans agreed to let the ways and means committee bill be introduced in an "informal discussion" of the changes which the finance committee recommends have approved. This committee has been appointed by the Memphis Chamber of Commerce in conjunction with several other organizations.

Two of the men wounded yesterday, J. Harris, a mailman, and E. L. Hackinger, civilian member of a police posse, still were in serious condition today but physicians stated they probably would recover. The others wounded were not seriously hurt.

The body of Vincent Lucarini, police officer, family man and when a posse searching for the bandits shot into a police automobile by mistake at Collierville, Tennessee, was found today in Nashville, Tenn., and the body of Polk A. Caraway, a patrolman, shot to death by the men who planned the robbery, was taken to Kent, Oklahoma, toning for burial. Funeral services for the other men killed, Howard L. Gamble, a special officer employed by the Ford company, will be held here.

Mr. Jones covered his subject thoroughly, and upon request touched on the rules of the city executive committee. In this connection he used the term "set aside" and rules and regulations to be issued by the committee, in order that people might become familiar with them.

Mr. Jones also urged the women to support and elect men of ability and merit in holding office, the right kind of men in almost every instance," said Mr. Jones. "Try to dig out the records of the men running for office. The man who runs his own business is very apt to be a success in the city's business. Pledges don't amount to much, and a woman who makes pledges in advance frequently cannot be depended upon to carry them out after they are elected. I have little faith in the chap who pledges his vote in advance."

Mr. Jones is in favor of the tax rate increase and as stated, "we cannot have the new bonds we voted for in the spring unless we get the money to raise, and we could not immediately enjoined on account of not having money to finance them. I feel that the way to meet the situation confronting the city is to secure a permanent tax rate of say \$1.50. We have too long been on a temporary basis. This would be a permanent fix for Atlanta."

By calling Mrs. Hodges, Hemphill, speakers for meetings in any part of the city can be arranged for.

Gordon's Portrait Given to Atlanta Chapter of U.D.C.

A happy occasion yesterday was the luncheon given by a committee of Atlanta chapter, U. D. C., to the group of Georgia legislators who came from the state for chapter one of the four paintings of General John B. Gordon which have hung in the capitol.

The luncheon was held at the home of Mr. and Mrs. Frank E. Hodges, 100 Peachtree Street, and will adorn the new home of Atlanta chapter, which they expect soon to see.

The luncheon was held in a private dining room at the Capital City Club, and the committee forming the hostesses group included Mrs. J. A. Peacock, president of the chapter; Miss Alice Baxter, Mrs. T. St. Venet, Mrs. E. M. Wilson, Mrs. Charles Low, and Mrs. George A. Clinton.

The legislative committee included Senator James H. Boykin and Representatives W. E. Smith and W. H. Thompson, and Mrs. Murphy and Murphy M. Holloway.

Mrs. E. W. More was a guest of honor. She painted the portrait sometime years ago. Price received high tribute of appreciation, many of the favorable criticisms coming from those who knew General Gordon.

The luncheon was a delightful one, with toasts offered both by the ladies and the gentlemen.

Councilman Jones Speaks at Women's Bureau Meeting

Robert Jones, Jr., councilman from the ninth ward, addressed a meeting arranged by the speakers' bureau of the Atlanta League of Women Voters, Mrs. W. D. Hodges, chairman, on "City Elections and the Primary," yesterday afternoon at Edison hall. The speakers' bureau is a committee of the league which arranges meetings at which women who are interested in the forthcoming election are given an opportunity to learn something of the candidates, the offices to be voted on and the issues to be voted on.

Mr. Jones covered his subject thoroughly, and upon request touched on the rules of the city executive committee. In this connection he used the term "set aside" and rules and regulations to be issued by the committee, in order that people might become familiar with them.

Mr. Jones also urged the women to support and elect men of ability and merit in holding office, the right kind of men in almost every instance," said Mr. Jones. "Try to dig out the records of the men running for office. The man who runs his own business is very apt to be a success in the city's business. Pledges don't amount to much, and a woman who makes pledges in advance frequently cannot be depended upon to carry them out after they are elected. I have little faith in the chap who pledges his vote in advance."

Mr. Jones is in favor of the tax rate increase and as stated, "we cannot have the new bonds we voted for in the spring unless we get the money to raise, and we could not immediately enjoined on account of not having money to finance them. I feel that the way to meet the situation confronting the city is to secure a permanent tax rate of say \$1.50. We have too long been on a temporary basis. A MODEL SHERIFF.

The ease with which Sheriff Plunkett, of Richmond county, outwitted a mob of vengeful South Carolinians yesterday morning, and thereby saved the lives of two prisoners who were in his keeping, is a most remarkable illustration of the time-honored human tendency that was decried by the Nazarene when he asked: "And why be holdest thou the mote that is in thy brother's eye, but considerest not the beam that is in thine own eye?"

Last Sunday a negro insisted upon sitting on a bench reserved for players at a baseball game in Detroit. The ensuing quarrel developed into a shooting affray, in which the negro shot two white boys; and, according to the Detroit Free Press, he was "rescued from a mob by the police at a time when he was in imminent danger of being lynched."

The Free Press went on to say that from all published accounts it appears the negro, though wrong at the outset, was acting in self-defense when he fired; but that would have made no difference to the mob, and would not have protected him if the police had not interfered.

This occurrence illustrates the fact that human nature is, after all, human nature, and nothing more nor less.

In Michigan, Georgia or anywhere else, human nature is the same.

The only difference between Georgia and Michigan is that if that Michigan negro had fled into Georgia, and had the governor of Georgia been asked by the governor of Michigan to relinquish the prisoner, our governor would not have sought to play politics with the incident as the governor of Michigan did in the case of the Georgia fugitive that was captured in his state.

But had it not been for the fact that Sheriff Plunkett, of Richmond, proved himself to be a fearless man of nerve and resourcefulness, Georgia's already shameful record of lynchings might have been increased by two—and by the act of a band of outlaw citizens from a neighboring state.

Georgia needs more sheriffs like Plunkett—sheriffs with a high conception of their duty, and nerve and ingenuity and wit enough to meet the emergencies that are likely at any moment to confront any officer of the law.

TINES AND FORFEITURES.

The municipal authorities that have enlisted in the current campaign to reduce the human hazard in Atlanta, can do much toward putting this city on a much higher plane of physical safety.

For instance, when a delegation from the junior chamber of commerce called upon Chief Beavers, their counsel as to ways and means to minimize reckless driving, the chief said that in his opinion the recorder was altogether "too easy" on speeders and other traffic law violators; and when the young men asked Recorder Johnson about it, he declared that, through no fault of his own, he is given an opportunity to pass judgment in only a comparative few of such cases, and that many cases made against traffic law violators never reach his court.

In other words, when an arrest is made the defendant is permitted to get back at police headquarters, after which it is optional with him whether to forfeit his bond—a few dollars—or to appear for trial before the recorder and fight for a dismissal of his case, at the risk, of course, of losing out and being fined in a sum in excess of his bond.

Naturally, the worst offenders—those who are flagrantly guilty and know it—are usually the ones whose cases go by default for trial, when a defendant goes into court under these conditions it is presumably with the conviction, upon his part at least, that either innocence or mitigating circumstances are on his side; and by the same token it is presumably that preference of bond forfeiture is not an evidence of guilt.

The recorder is hardly to be criticized for leniency in imposing

light sentences upon defendants who voluntarily stand trial, when others, presumably more flagrantly guilty, are permitted to go scot-free for a few dollars without their cases ever even being brought to the attention of the court.

There is a remedy for this sort of business—a remedy such as would stop the practice of evading justice by forfeitures of inconsequential bonds.

MICHIGAN AND GEORGIA.

Readers of The Constitution are familiar with the recent instance in which the governor of Michigan refused to honor the extradition of a Georgia negro charged with murder on the ground that he feared the prisoner would be lynched if returned to this state.

The unusual position taken by the Michigan executive was given wide publicity, of course.

The Michigan press made much of it, and took fullest advantage of the incident to extoll the virtues of that commonwealth, and magnify Georgia's record—infamous as it is—as a "lynching state."

But it proves to have been another case of "the pot calling the kettle black."

Also another illustration of the time-honored human tendency that was decried by the Nazarene when he asked: "And why be holdest thou the mite that is in thy brother's eye, but considerest not the beam that is in thine own eye?"

On that commission which has already been organized by the election of Representative George H. Carwell, of Wilkinson, chairman, and Senator Russell Snow of Brooks, secretary, there are a number of able members. It is noticeable, however, that of the entire personnel of five senators and ten representatives there are only two cities of the size of Athens and larger represented on the commission, namely Representatives Hunter, of Savannah, and Dudley, of Athens. Neither Atlanta, Macon, Augusta, Columbus, Rome, Albany, Brunswick, Griffin, or Americus are represented.

FRED S. STEWART AND FORCE BACK FROM BIG OUTING

The Whitehall street store of the Fred S. Stewart company Thursday morning hummed with the voices of employees and officers of the concern relating their experiences on a two-day picnic to Borden-Wheeler, Georgia, from which the professor had just returned.

Mr. Stewart, president of the company, this year followed his usual custom and closed up his office for two days to be host to the entire "store family" on an outing which does not cost them a penny.

He has been the mecca for the past two years of generations

among which were included great-grandchildren, great aunts and uncles.

The 1922 reunion of the Estes will be held at Rex, Ga. It was decided during the annual reunion of Atlanta, held last year, that a committee was appointed to make preliminary estimates and consider the feasibility of inaugurating such an institution.

Adoption of a definite plan of action in commencing work incidental to the foundation of the Estes Christian Institute was the feature of the annual reunion of the Estes family at Grant park Thursday.

It has been the wish of members of this old family for several years to organize such a school for perpetuation of the Estes name in the Estes name.

The Estes family has been authorized to begin work at once for raising a fund of \$15,000 which is a sum which will be sufficient

as a starting fund.

This committee is composed of Dr. W. C. Estes, of Rex, Ga.; J. H. Rutledge, Ga.; J. M. Estes, of Hartwell, and J. C. Estes, of Clayton. An act of land suitable for the institution has been donated by Dr. W. C. Estes, and it is located at Rex, Ga.

DISCUSS PLANS FOR NEW SPRING STREET VIADUCT

Engines, the city planning commission and members of the viaduct committee discussed plans for the new Spring street viaduct for two days in Mayor Key's office Thursday morning, with plans for its construction were presented by the engineering concerns of Harrington, Howard & Ash, of Kansas City, Mo., and Spiker & Lose, of Atlanta.

C. E. Kaufmann, chief engineer of the Atlanta engineering concern, stated Thursday that there was no substantial difference in the plans proposed by the two engineering concerns, and the need of accommodating the construction to the railroads over which it will pass make the plans necessarily similar in many details.

FULTON COUNTY SCHOOLS TO OPEN SEPTEMBER 12

Regular classes in the Fulton county school system will open on Monday, September 12, according to an announcement made Thursday by J. W. Simmons, school superintendent, on behalf of the board of education.

On Friday, September 9, all the schools will be open for the inspection of parents, students and distributing book lists.

The tuition rates will be the same this year as last—\$15 for the grammar school, \$18 for the high school.

Tuition is payable in three installments in advance at the opening of each term.

The books authorized by Wm. E. Moore, chairman, and Superintendent Simmons to take up with the authority of the Atlanta school authorities, running over to the city the Morwood school, which has hitherto been a part of the county system. Morwood has recently taken charge of the school and the school is therefore a part of the city school system.

The number of improvements will be made at the Lakewood school before the fall term opens.

Whitehill Tames Crackers For Baron Victory in Second

Locals Stage Desperate
Rally for Three Runs.
Four Extra Base Hits
for Barons.

BY JOE HATCHER.

Mr. "Lefty" Whitehill weathered the Cracker storm in the eighth with only minor injuries and outside that frame served up more. The Baron boss also discarded the straw hat for a Cracker cap, which might or might not have had some bearing on the superstitious element.

Richard Kauffman returned to the game for the Crackers and George W. Morrison at short. Red Smith showed up inning for the day.

The Barons confined their running efforts to three innings, the fifth, sixth and eighth. Tommy Taylor lifted one over Red Wing's dome for three sacks in the fifth and one past Freddie Graff. Graff might have handled the ball but he didn't and Tommy ran on Allen Cook.

Mr. Lefty Whitehill, who poked one to right for "Pug's" transportation home.

The Baron Trotter walked and Taylor singled. Doc Silva then made things safe for the afternoon with a two-time swat out to Sam Maynor's fungo, and two runs were scored.

Traynor's triple past Sammy Meyer in the eighth and Dutch Bergman only connected for seven outs of Osborne but those were of the heavy variety and came at the crucial moment. The Baron Trotter and two doubles were included in the seven base knocks registered by the Barons for their five runs.

Crackers' Big Threat.

Back to the Crackers only chance was in the ninth and the Wings opened the season with singles to center and right respectively. Mr. Kauffman lited to right but Sam Schmidt forced him out. Freddie Graff got his second hit off the matinees and Sammy romped home and the night. The Baron Trotter and "Butch" Schmidt drove one to center for two bags and both Wings and Trotter were out.

Sammy relieved Osborne of the hitting task against the muchly left-handed Whitehill and Bill got a free pass.

Herb Brenner was nominated to hit for the injured Mr. Whitehill and the rally stopped immediately.

Void of Thrills.

There was little in the contest in the way of thrills. Emery tried a steal of home in the fourth but the piece of work was bad. Bill Emery Schmidt Emery by inches and the Baron's center fielder sold his soul to the Karmans for a nice stab off Taylor's bat in the eighth that robbed the Baron of his trial for his third hit of the afternoon.

The Crackers had exactly twice as many runners perched aboard the sacks as the Innings ended, while the Barons had only one in the pinches and the Crackers' inability to put over the necessary punch.

"Young" Stribling

Interest in the coming southern featherweight championship match which will play Monday night at the Auditorium between Young Stribling, the little Macon sensation, and Freddie Boorde is at fever heat, if just from the size of the audience that witnessed both boys in their workouts at the Business Men's club yesterday means anything at all. The attendance at the two workouts equalled the number that attended the workout of the flashy colored champion, Joe Gans, Sunday.

Young Stribling with "Pa" Stribling, his manager, Hooty Flahive, and Young Feldman, who will be remembered by Atlanta fans as once being a close rival of Battling Budd here, arrived in Atlanta about noon yesterday and have pitched their training camp for the coming match.

Young is the youngest working out daily from now until Sunday evening for the benefit of the Atlanta fans and will be glad to have them in attendance.

It may be well to add that "Pa" also takes his turn in the boxing and after seeing "Pa" and "Young" in the squared circle can soon be fully understood.

Billy Lotz, who is training and managing Freddie Boorde, is in

to say that Boorde will be in the best shape of his whole career for his big fight with Freddie Boorde at the auditorium Monday night.

"I am not going to let Tex Rickard have anything on me in the treatment of the champions that appear for him up there," declared Bill Miller, the promoter. "I expect to present a championship belt to the winner of the Boerde-Stribling match Monday night."

While the belt will not be dis-

cerned, it may be one that any fighter in the game would be proud to own.

Young Stribling took his first work-out before a large local crowd at the YMCA gymnasium yesterday afternoon. The Macca Flash will work out daily at the local gym.

Young's time of game, 1:40; Umpires, Evans and Donaldson.

NEW PITCHER FOR ATLANTA

The Dutchman is back from his conference with Judge Landis about the validity of Atlanta's right to sell Cliff Markle and announces that he and R. J. Spiller, president, are convinced that the final tribunal will decide in favor of the local club.

"The new pitcher is a right-hander and weighs around 180 pounds, we are told by Captain Raden.

This weight ought to permit him to take rank with the other giants on the Atlanta pitching staff. He will report to Bill Bedgood, who will probably draw a pitching assignment Saturday—the last day of the Baronal invasion.

Douglasville Wins Over Burwell Team

Douglasville, August 11.—Douglasville defeated Burwell here today by the score of 5 to 1. In the third game of the series, taking the series, Pease and Jeter both pitched. Pease gave up one run in the bad inning, the 7th when the locals bunched 5 hits for 5 runs. Gles in right field made the prettiest catch of the day, leaping over the local field, getting the ball on a dead run and getting it bare handed.

"There's no doubt in my mind about Leftwich's ability to pitch a winning game," said the Southern League's Raden declined some day. "The lad has been the sensation of the amateur leagues in Cincinnati, Indianapolis, Pease and Smith; Burwell, Peter and Morgan; Bill then asserted that Leftwich is all fine—the Atlanta bugs are glad to hear that Cliff will give them a chance to hear about new players. And the Dutchman delivered some words of wisdom along this line.

A new pitcher is on the road, coming from Cincinnati, but not from the Reds. His name is Leftwich and he has a whale of a record with the semipro outfit in Redland.

Mr. Rank obtained him on Bill Raden's recommendation. Bill has seen the youngster work time after time and stated yesterday that Leftwich is certain to be a winner in the Southern League.

was to leave Paris created a whirlpool of excitement in official and journalistic quarters. Owing to the suddenness of the reported "break" newspaper men swarmed the government offices demanding clarification of the situation, and asking for a categorical statement as to what had transpired and "occupied."

Lord Riddell went to the room of the British premier and returned with the announcement that Lloyd-George had again appealed to Parliament, and that the situation would be open to further discussion before the British leader leaves Friday for London.

Irish Question is Vital.

He added that the Irish question is vital to the British government, and that a meeting of the full cabinet had been called for Saturday in London.

It was originally announced that Lloyd-George would take him with him to the British cabinet. This was later denied, and instead it is understood that Lord Curzon, British foreign minister, with several of his experts, will be present.

Officials refused to say whether Lloyd-George or Bland held an extended "breakfast" conference Thursday in an endeavor to reconcile their differences.

Both premiers agreed that harmony was a vital necessity, but left the conference still deadlocked, and both maintained substantially their original positions.

Foreign Trade Financing Makes Bears Sell Stocks

By R. L. BARNUM

New York, August 11.—There was some liquidation in stocks today and a lot of bear selling. Too much is being made stock market-wise of the new developments that have arisen in the "frozen" loan situation growing out of the financing of foreign trade. The stocks that are being sold short now will have to be bought in and returned. Liquidation, as well as short selling, occurred in both the rails and industrials.

General Asphalt's report for the first half of 1921 was taken up by the bears to depress prices through the industrial list. The deficit for the six months was \$511,000, of which \$731,000 was for the first quarter. April showed a deficit of \$155,000, May \$50,000, and June \$23,000. The rails were sold off from Washington and certain senators over the proposed financing of the railroads. The senators opposing the plan claim that the government had loaned the companies during federal control \$1,144,000,000 raised by the sale of Liberty bonds; that the money had been spent on expenditures; that these expenditures had been capitalized when the companies gave the government their notes; that to raise new money now on those notes, which are to be extended for ten years, is the same as raising the money twice; that in the long run the government would lose by the operation. As yet no acceptable answer has been made to this argument.

Encouraging Signs Seen. From the viewpoint of the rails the most encouraging signs may be found in the final statement just published covering earnings for June. The original estimate was that net operating income for July would be \$40,000,000. It was \$51,778,000, the largest for any month since last November, and \$14,613,000 larger than for the preceding month. For June 3.1 per cent was earned on the property account of the railroads as a whole. This is 47 per cent below the amount required to pay 6 per cent. However, it compares with only 2.4 earned on property account for May and with deficits for the preceding months. During June it required only 82 cents out of every dollar taken in gross to pay operating expenses, whereas for May 85 cents was required, and for June of last year 96. These figures prove conclusively that without government aid and without the reduction in wages which became effective July, the railroads were moving in the right direction.

Freight cars loaded with revenue tonnage during the week ending July 30 increased 6,222 compared with the preceding week, all classes of freight, with the exception of coal and ore, showing gains. The total was 786,570, a decrease of 139,798 cars, compared with the same period of last year, and 128,625 with 1919.

Freight Trade Statements.

England and the United States both publish today their July foreign trade statements. England's exports for the month amounted to \$43,000,000 pounds against \$38,000,000 for this June and \$37,000,000 for July of last year. That increase over June undoubtedly reflects the settlement of the coal strike. Her imports for July were 80,000 pounds against \$8,000,000 for this June and \$16,000,000 for July last year. July imports were the smallest for the year.

Our statement shows July imports at \$178,000,000 against \$198,000,000 for this June, \$208,000,000 for July of last year. Our July exports were \$322,000,000 against \$340,000,000 for this June, \$329,000,000 for May and \$651,000,000 for July of last year. For the seven months our imports dropped to \$1,493,466,000 compared with \$2,856,265,000 for the corresponding period of last year, with exports down to \$2,856,265,000 against \$4,895,500,000.

Our gold imports for July were \$64,000,000 against \$19,000,000 for July, 1920, making gold imports for the seven months \$416,000,000 against only \$114,000,000 for the same months last year. Gold exports for the seven months of this year were only \$10,000,000 against \$217,000,000 for the same period of 1920.

Too much importance cannot be attached to the trend of our foreign trade movement and the heavy gold imports. Before we are through with the readjustment from a war to a normal peace time basis we will find these two factors guided our course.

PROFESSIONAL VIEWS ON COTTON SITUATION

New York, August 11.—(Special)—Reports of possible short covering continue to appear in the press, but there is no real evidence of any such action.
